Mount Sinai Medical Center & Miami Heart Institute is South Florida's largest private, independent, not-for-profit teaching hospital. The union of the two hospitals, which took place on June 30, 2000, brought together more than 3,500 employees, 500 volunteers, 935 beds, 26 operating suites, and nearly 1,116 physicians. We specialize in the diagnosis, treatment and prevention of heart disease. With 978 open-heart procedures and 7,088 diagnostic and therapeutic cardiac catheterizations performed in 2003, our cardiac surgery program is the most active in South Florida. Mount Sinai & Miami Heart is the only Miami-Dade hospital named in the Solucient 100 Top Cardiovascular Hospitals, a national survey that identifies hospitals with superior performance in cardiac care.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
