Singapore

Welcome to the website for National Cancer Centre, Singapore (NCC). As a national and regional centre of excellence, we are committed to excellence in research, education and clinical services. At NCC, we adopt a multidisciplinary and holistic approach to cancer treatment. We undertake training and education of medical, radiation and surgical oncologists and other allied health personnel to develop relevant clinical and basic research programmes in the understanding, prevention, diagnosis and treatment of cancer. We strive to provide the highest standards of medical diagnosis, treatment and patient care. This website provides you with general information about our specialist oncology clinics and other outpatient services which we provide. We welcome any feedback and suggestions you may have in improving our website in order to serve your needs better.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
