The mission of the Neuropsychiatric Research Institute is to improve the health status of individuals. This will be done by establishing and maintaining affiliations with core partners to create a center of excellence in the neurosciences that will enhance clinical expertise through education, research, and service. The Neuropsychiatric Research Institute was created to be a catalyst for supporting research and innovation in the science of health care, focusing on diseases and disorders of the brain and central nervous system. The development of new therapies depends on scientific inquiries in both basic science and clinical research - the kinds of collaborations supported and encouraged by NRI

Recent Publications by Neuropsychiatric Research Institute:

- [The effect of chronic antipsychotic drug administration on nitric oxide synthase activity and gene expression in rat penile tissues.](#)
Antipsychotic drug treatment may be associated with common and problematic... 17th November, 2009
Neuropsychiatric Research Institute, School of Clinical Medicine,- Eur Neuropsychopharmacol. 2009 Nov 13. ([DOI Direct Link](#))
- [Health care utilization in patients with eating disorders.](#)
OBJECTIVE: To examine health care costs among patients with eating... 3rd November, 2009
Neuropsychiatric Research Institute, 120 South 8th Street, Fargo, North- Int J Eat Disord. 2009 Sep;42(6):571-4. ([DOI Direct Link](#))
- [Optimal positive airway pressure predicts oral appliance response to sleep apnoea.](#)
Patients with less severe obstructive sleep apnoea (OSA) are usually... 21st October, 2009
Neuropsychiatric Research Institute, Tokyo, Japan; and Dept of Somnology,- Eur Respir J. 2009 Oct 19. ([DOI Direct Link](#))

Frost & Sullivan Award Underlines Cipla Medpro's Status as Company of the Year in the South African Generic Pharmaceutical Market	26th November, 2009	Frost & Sullivan	JOHANNESBURG, South Africa, Nov. 26 /PRNewswire/ -- The 2009 Frost & Sullivan South Africa Company of the Year Award in the Generic Pharmaceutical Market is presented to Cipla Medpro South Africa
FDA's Woodcock Discusses Pain Management and Drug Safety in Nov. 26, 2009 Issue of The New England Journal of Medicine	25th November, 2009	U.S. Food and Drug Administration	SILVER SPRING, Md., Nov. 25 /PRNewswire-USNewswire/ -- An article by Janet Woodcock, M.D., director of the FDA's Center for Drug Evaluation and Research, titled "A Difficult Balance - Pain

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password

- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
