The Park-Klinik Weissensee has gained an excellent reputation as an attractive and highly competitive hospital. Capacity, economic viability and good medical and nursing quality are the crucial success factors of this clinic in private ownership. The Park-Klinik Weissensee, in the north of Berlin, was opened in 1997 as a newly built hospital. The clinic is surrounded by the "Park of the Senses". Here, various artistically designed installations and objects stimulate the eyes, ears and senses of smell, touch and balance.

The Park-Klinik Weissensee fulfils all technical demands for extensive surgical care of patients with illnesses of the joint and skeleton as well as the spine.

The Health Center supplements the stationary and ambulatory offers with health-promoting programs encompassing the areas of exercise, nutrition and relaxation. The Health Center, with its International Medical Service, co-ordinates the care of foreign patients
