Easynet is a pan-European advanced network owner with operations in ten European countries. A British Sky Broadcasting company, it has a market capitalisation in excess of Â£9bn. Easynetâ€™s consumer Internet Service Provider, UK Online, is one of the industryâ€™s most innovative ISPs, frequently first to market with groundbreaking new internet services for home users.

Easynet works in partnership with its customers to identify their key business drivers and to deliver corporate data network services across its 21st century IP infrastructure. An industry-leading 99% of its project management team is PRINCE2 practitioner-accredited. Across Europe, Easynetâ€™s European Corporate Customer Care team provides a 24-hour, single point of contact with local expertise, proactive monitoring and detailed customer reporting.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
