Pepgen Corporation, founded in 1992 by Dr. CP Liu is based in Alameda, CA. Pepgen is a privately held biopharmaceutical company seeking to develop and commercialize novel products for the prevention and treatment of autoimmune and viral disorders. The company's lead inflammatory product, Tauferon™, is in Phase II human clinical studies in multiple sclerosis (MS). Tauferon™ can be administered orally, which is a significant improvement over existing therapies, which require frequent, painful injections. Pepgen is also advancing Neoferon™ through pre-clinical development for the treatment of viral infections and cancer.

## BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast

service

- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
