A survey in the fall of 1999 by US Consumer Reports showed that buyers could save as much as 29 percent by obtaining certain drugs from a Canadian pharmacy. Purchasing online from a Canadian pharmacy can yield much larger savings of up to 50% on average compared to buying those same drugs "discounted" by Medicare. Prescription drugs bought from Canadian pharmacies are the same high quality, brand name medications as you buy locally but at affordable prices. CanDrugstore.com is the established online outlet for a chain of well-respected retail Canadian pharmacies. They are renowned for top flight personal service, knowledgeable staff and possess an excellent reputation for making deliveries as promised.

CanDrugstore.com does not prescribe or dispense medications. Dispensing of medications is always done by registered pharmacists. Our retail network of Canadian pharmacies fills prescriptions only after review by a physician, ensuring the highest quality controls every time.

CanDrugstore.com also offers some drugs online without a prescription. Nonprescription products include custom compounds, pet medications, and medical supplies. And best of all, almost anyone can purchase through our website at prices markedly discounted. It's no wonder then that thousands of people are now choosing to purchase their medications from this Canadian pharmacy!
