PRISMEDICAL CORPORATION (PMC) was incorporated on March 19, 1996 in the state of California. PMC's vision is to create highly effective and portable point-of-use water filtration capabilities for medical, emergency preparedness, outdoor enthusiast and military applications, utilizing our proprietary Portable Remote Injectable Saline Maker (PRISM) technology.

PMC has conducted several research projects for the Department of Defense through the Office of Naval Research. PMC's MainStream®, a prescription only FDA cleared water purification device, is the first product in a pipeline of emergency medicine delivery products that will compete on the basis of "real time" access, ease-of-use, medical mobility and adaptability to emerging trends such as the need for pharmaceutical defense systems for public safety. MainStream is a portable hand-held device that produces 3 liters of Sterile Purified Water, USP. In 2006, PMC introduced the Triton® EP Personal Water Purification Unit. Capable of producing up to 55 gallons (200 liters or 440 pounds) of highly pure water for emergencies or outdoor use, Triton EP operates without power, pumping or chemicals. Triton EP's 1.2 pound size and five year shelf life enable emergency preparedness agencies and families planning for emergencies to easily transport and store Triton EP, while not having to worry about recycling stored water, which can become unsafe over time (FEMA recommends changing stored emergency water every 6 months).

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
