The Society for Clinical Trials, created in 1978, is an international professional organization dedicated to the development and dissemination of knowledge about the design, conduct and analysis of government and industry-sponsored clinical trials and related health care research methodologies. To provide a forum for discussion of biometrical, computational, philosophical, ethical, and procedural issues arising from the design, organization, operation, analysis, and reporting of clinical trials. To promote methodologic research and the application of sound scientific methods of intervention trials.

To facilitate communication among the various disciplines involved in the conduct of clinical trials.

To educate and inform health care researchers about the design, operation, and analysis of clinical trials.

To promote a better understanding by the general public of the importance of randomized clinical trials in evaluating interventions for the prevention, diagnosis, and treatment of disease.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
