St Charles Pharmaceuticals is developing novel therapeutics targeting pain, neuroprotection and neuroinflammation. St Charles concentrates on translational research and drug development. The Intellectual Property was licensed out of Louisiana State University from ongoing drug discovery research collaborations between the company's founder, Dr. Nicolas Bazan, Villere Professor and Head of the Center for Excellence in Neurosciences at LSUHSC, and his collaborator, Dr. Julio Gomez, Chair of Organic Chemistry at Universidad de Alcala, in Spain. The Company seeks other licensing opportunities in the pain and neuroinflammation area from outside of the LSU Health Sciences Center.

From 2000 until 2005, St Charles Pharmaceuticals was operating as a virtual company funded by \$2.73M in NIH SBIR grants and a \$4.3M Series A round by a single private investor. During the last five years, the founders have succeeded in progressing the lead compound, SCP-1, a novel analgesic, into Phase I clinical safety studies. The second-generation compound, SCP-123, is ready for IND-enabling studies.

## BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
