We have been supplying the research and scientific community with hormones and steroids for over forty years. Our 300 page specialist reference catalogue contains the schematics, specifications and prices of the 3000+ hormones and steroids we have available. We undertake many custom syntheses.

Our unique Online Catalogue is found at this "site" for your convenience. It is intended as a reference point and reflects the latest information available from our headoffice for use by researchers. It is by no means entirely complete, but we hope that it allows you access to the Steraloids reference catalogue if you do not have a hard copy of the 12th edition. It is and will be in a constant state of flux.

Please contact us if you cannot find the compound you need, or would like us to make it, or a conjugate of it.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
