Sun Pharma began in 1983 with just 5 products to treat psychiatry ailments. Sales were initially limited to 2 states - West Bengal and Bihar. Sales were rolled out nationally in 1985. Products that are used in cardiology were introduced in 1987, and Monotrate, one of the first products launched then has become one of our largest selling products today. Important products in Cardiology were then added; several of these were introduced for the first time in India. Realizing the fact that research is a critical growth driver, we established our research center SPARC in 1993 and this helped sharpen product and process development skills. Access to high quality bulk actives ahead of competition and the vast international opportunity prompted us to build our first bulk active plant in Panoli in 1994

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
