Superfos is Europe's largest manufacturer of injection moulded plastic packaging. We supply high-quality packaging for food, non-food and pharmaceutical markets. Superfos is headquartered in Denmark and has 1,600 employees at 11 production facilities across Europe and one in the United States. Today, Superfos is a focused pan-European company with a modern and dynamic platform and a homogenous modernized product program. We offer our customers unique possibilities for uniformed product display and decoration across international market boundaries.

All production facilities provide a harmonized European range to large international groups, which make up the core customers of the company.

As a market leader Superfos strive to deliver high quality products at all times, which consider these demands and add value to and contribute to create preference for customers' products.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
