SuppreMol GmbH is a private biotechnology company located in Martinsried near Munich, Germany, and is focused on the development of novel therapeutics for the treatment of autoimmune diseases. In particular the Company is focused on the development of soluble Fc γ -Receptors (sFcRs) which are recombinant autologous therapeutic proteins endowed with a proven strong immunosuppressive potential. SuppreMol will develop sFcR as a therapeutic for autoimmune diseases such as Idiopathic Thrombocytopenic Purpura in the first instance and then Systemic Lupus Erythematosus, and Rheumatoid Arthritis. In addition, the Company also has two additional programs to develop an anti-Fc γ RIIb monoclonal antibody and small molecules to target Fc γ R receptors. The Company was founded in 2002 as a spin-off from the Max-Planck-Institute of Biochemistry in Martinsried/Germany

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
