Since 1987, Integrated DNA Technologies (IDT) has been a major force in advancing biotechnology research both as a leading supplier of custom oligonucleotides and a developer of innovative new biotechnologies. Researchers select IDT as their custom oligonucleotide supplier of choice for quality, service and price. Over 60,000 customers worldwide trust IDT for dependable products of the highest quality. In 2001, IDT dramatically expanded its manufacturing capacity and further enhanced its high-throughput synthesis division. IDT now routinely fulfills large-volume orders consisting of hundreds of thousands of oligonucleotides, while still maintaining quality controls that are second to none. Today, every oligo synthesized is tested by mass spectrometry and must pass strict quality control guidelines to be shipped to customers. In addition to improving the quality of custom synthesized DNA, IDT has increased the speed at which customers receive oligos with unique SameDay® oligo synthesis, Rapid HPLCTM purification services and Express DLPTM products.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services.

BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
