In view of rapid expansion of the chemical and pharmaceutical industries during the sixties and early seventies in and around the city of Hyderabad, the capital of Andhra Pradesh, the need for starting of B.Pharm course in Osmania University was felt and as a result, the first batch of students was admitted in 1974

with arrangements for their instruction in the University College of Chemical Technology in the Osmania University campus. During 1976, the first two batches of B.Pharm students were brought to Arts and Science college (a constituent college of Osmania University) Warangal to fulfill the condition of being in Telangana Rural area for tapping funds from Telangana Development Board. The arrangements for their teaching were made in Kakatiya Medical College and Regional Engineering College apart from Arts and Science college. With the establishment of Kakatiya University in August 1976, the responsibility of Osmania University for administering the B.Pharm course ceased.

Thus Kakatiya University from its very inception, became the second university in Andhra Pradesh to impart the Pharmacy education and to cater to the needs of Pharmaceutical industry in Andhra Pradesh, the first being Andhra University, Waltair.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
