Uppsala University is an internationally well-known comprehensive research university set on advancing science, scholarship and higher education. For more than 500 years, Uppsala University has been a renowned seat of learning with rich opportunities for students and researchers at all levels. Our history is part of our strength – but our minds are set on the future. Our most valuable assets are the individuals who make Uppsala university one of Sweden's most exciting places to work and study. Science, scholarship, education, enterprise and culture mix and match at Uppsala. Our students and faculty are always at work, advancing the boundaries in their fields.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
