Veco International was formed in 1979 as an environmental control company serving the pharmaceutical and biomedical industries. In 1987, the decision was made to expand the range of services offered to our clients. As a result of this decision, Vectech Inc. was born. Combining Vectech's consulting and validation specialists with Veco's product lines, the two companies were able to meet many more of our clients' needs more efficiently. In 1996, Vectech and Veco became one, creating a full-service company to fulfill all of our clients' needs. Vectech Pharmaceutical Consultants is the culmination of twenty-five years of knowledge, service, and experience in the pharmaceutical, biomedical, and medical device industries. Vectech boasts an outstanding staff of consultants, engineers and technical support personnel who have a unique combination of education, experience, and know-how to provide hands-on solutions to your problems.
