Germany

Our unique and proprietary diagnostic technology enables the detection and quantification of viruses without the use of PCR or antibodies - Direct detection of viruses and viral particles

- Fast and simple
- Suitable for known and unknown viruses

Areas of application:

Diagnosis and monitoring of viral infections

- Known and unknown viruses

Process control in biotechnology

- No viral contamination
- Monitoring of viral production

Virus bio terrorism defense

- early detection of novel viruses

Recent Publications by Virus Detection & Diagnostics Virinova:

- [Immunosuppressive cytokine Interleukin-10 \(IL-10\) is up-regulated in high-grade CIN but not associated with high-risk human papillomavirus \(HPV\) at baseline, outcomes of HR-HPV infections or incident CIN in the LAMS cohort.](#)

Bypassing the local immunological defense reactions in the cervix is one... 13th November, 2009

Department of Oral Pathology, Institute of Dentistry, University of Turku,- Virchows Arch. 2009 Nov 12.

([DOI Direct Link](#))

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo

- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
