Switzerland

Dr Wild & Co. Ltd was founded in 1932 by Dr Samuel Wild and Werner Wild as an independent and self-supporting company, which it still is. At the time, it was a great challenge to take up the development, manufacture and quality control of medicines. Until the end of the second World War, the main market was Switzerland.

In the 1940ies a whole range of dental care products was developed and manufactured thanks to a close and fruitful collaboration with dental universities and physicians. During this pioneering work, Dr Wild succeeded in adding therapeutically active ingredients to toothpastes, mouthwashes, gingival pastes and gels.

The first products to appear on the market were the EMOFORM medicated toothpastes, which are famous today in more than 50 countries worldwide. In the course of time, new products were developed like EMOFRESH, GINVAPAST and DEPURDENT. Dr Wild also took over from Roche Consumer Health the worldwide distribution of DEAF TOL mouthspray and tablets for the treatment of aphthae, inflammation of the oral mucosa and denture pressure spots.

Recent Publications by Dr. Wild & Co. Ltd.:

- [The relaxed requirements of the integron cleavage site allow predictable changes in integron target specificity.](#)

Integrons are able to incorporate exogenous genes embedded in mobile... 17th November, 2009

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast

service

- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
