Zydus Pharmaceuticals (USA) Inc. is a globally integrated generic pharmaceutical company with a focus on providing high service, quality and affordable products. Our leadership, which has over 40 years of US generic market experience, understands our customer's business which allows Zydus Pharmaceuticals the ability to provide unique models to help drive their success. Though a new company in the US market, our parent Zydus Cadila has a large presence in the global markets, including relationships with many top tier international pharmaceutical companies. Based on a manufacturing and development history that spans over 50 years, our experience and knowledge affords us the ability to have one of the largest and most aggressive DMF and finished product pipelines in the industry.

Over the next three years we will be filing on average two additional products and DMFs per month. Through 2005 we will exceed that goal by filing 30 products and 28 DMFs. We're ready now to support that growth with the largest, state-of-the-art, cGMP, FDA approved formulation plant in India boasting a capacity near 12 billion units. We also have two FDA approved API plants with capacities exceeding 280 metric tons. Our sustained release technology and ability to manufacture tablet, capsule, soft gel, sterile liquids, injectables, inhalers, and trans-dermal patch dosage forms allows us to target even the most difficult of products. Once manufactured, our packaging area is equipped to handle special customer requests such as bulk, unit-of-use, blister, and consumer product packaging.

Press Releases on Zydus Pharmaceuticals (USA) Inc.:

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
