Through the Power of Our People, and in accordance with the AdvaMed Code of Ethics, we continue to develop new therapies to restore bodily functions and to enable people to regain control of their lives. These therapies are often inspired by the urologists, gynecologists and urogynecologists who choose AMS as their solutions partner ... truly the Surgeon's Choice. Several of our treatments are so minimally invasive that they can be performed in the comfort and convenience of a doctor's office. In fact, this is a distinction that guides our future development. We will continue to increase our offering of minimally invasive procedures, the next-generation therapies preferred by patients and their doctors.

## BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
