United States of America

American Medical Technologies is a patent rich company holding domestic and international patents pertaining to its business. Since its incorporation in 1989, American Medical Technologies has been the recognized world leader in development, manufacturing, and marketing of advanced products. These technologies allow the practitioner to offer precise, minimally invasive, non-traumatic dental treatment. American Medical Technologies is an innovator and world leader in three product categories. These categories constitute a major share of all high-tech dental related equipment such as air abrasive systems, high speed curing lights and intra-oral video cameras. American Medical Technologies originated the laser, modern air abrasion, and high-speed curing categories and remains the leader in two of the three technologies. High-speed curing was revolutionized with the introduction of our first "Plasma Arc Curing" light and a whole new standard of portability was established for intra-oral cameras when we introduced the UltraCam® III docking station. The company's leadership has been further enhanced through domestic acquisitions and international manufacturing partnerships.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo

- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's relate service indepth.

The annual cost is \$495.00 for established organizations and \$295.00 for organizations less than 12 months old.
