Restore Medical, Inc. develops, manufactures and markets our proprietary Pillar® palatal implant system, or Pillar System, an innovative, minimally invasive, implantable medical device to treat sleep disordered breathing, which includes obstructive sleep apnea, or OSA, and snoring. During the Pillar Procedure, a physician places three small, braided, proprietary polyester implants into the muscle of the soft palate. These Pillar implants stiffen and add structural support to the soft palate, minimizing or eliminating the palatal tissue fluttering or vibration that can cause snoring and the retropalatal collapse that can obstruct the upper airway and cause OSA. We currently market and sell our Pillar System to otolaryngologists (ear, nose and throat physicians, or ENTs) and to a limited number of oral maxillofacial surgeons. The Pillar Procedure is a safe and clinically effective, long-lasting procedure which results in minimal pain and discomfort and offers significant benefits to both patients and physicians over other available treatment options for patients suffering from mild to moderate OSA and snoring. Our Pillar System was cleared by the United States Food and Drug Administration for snoring in December 2002 and for mild to moderate OSA in July 2004. Our Pillar System also received CE Mark certification for snoring and mild to moderate OSA from the European Commission in May 2003 and December 2004, respectively.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
