ScienCell Research Laboratories (ScienCell) is a biotechnology company whose mission is the research and development of cell and cell-related products for experimental and therapeutic use. The ScienCell technology provides a variety of high quality normal human and animal cells, cell culture media and reagents, medium supplements, cell-derived RNA, cDNA and proteins for the research community. Scientists at ScienCell are also studying and developing cell therapeutic strategies that will significantly improve the quality of life by achieving the cell's ability to combat human degenerative disorders. We are based in San Diego, California and were established in 1999

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
