Dragon Pharmaceuticals Inc. (TSX: DDD, OTCBB: DRUG) is an international biotech company headquartered in Vancouver, Canada, with production and R&D facilities in Nanjing, China and 160 employees worldwide.

The Company develops and commercializes human proteins for therapeutic use. Using superior and proprietary DNA vector technology, Dragon is able to produce high yields of quality protein drugs at low costs and high margins. Dragon is one of the world's largest producers of Epoetin Alfa, or EPO, a therapeutic protein used to treat anemia related to kidney failure, chemotherapy, and surgery. Dragon's EPO is approved and being marketed for use in chronic renal failure in China, Egypt, India and Peru. Additional regulatory submissions are in progress throughout Central and Eastern Europe, Southeast Asia, Latin America and the Middle East.

### BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
