Penam is a upcoming specialty pharmaceutical company with a balanced portfolio of branded and generic products, We pursue a multi-layered growth strategy combining internal product development, strategic alliances and collaborations and synergistic acquisitions of products and businesses.

Our focus is to make good drugs better, by finding ways to deliver them with greater safety, stability and/or effectiveness. As proud as we are of our accomplishments over the years in Pharmaceuticals industry, we define our success at Penam in human terms. Any strategy we employ must reflect our commitment to integrity in the face of one of the most vital human agendas - health.

Together, we come to work each day driven by individual accountability and inspired by the knowledge that the products we make help people live better, healthier lives.

Our Purpose

We dedicate ourselves to humanity's quest for longer, healthier, happier lives through innovation in pharmaceutical.

We demand of ourselves and others the highest ethical standards, and our products and processes will be of the highest quality.

We are deeply committed to meeting the needs of our customers, and we constantly focus on customer satisfaction.

Quality -- Where everything is negotiable except quality

Trust and reliability inherent in the word Quality. Quality is ingrained in the work of our colleagues and all our Values. We are dedicated to the delivery of quality healthcare. Our business practices and processes are designed to achieve quality results that exceed the expectations of patients, customers, colleagues, investors, business partners and regulators.

The Quality Control Department is responsible for the quality testing of all raw materials, finished products and packaging components. The QC Laboratories are modern, well equipped and comprise chemistry and microbiological laboratories.

CONTRACT MANUFACTURING

The demand for new product component development and manufacturing can easily outpace the availability and sophistication of any one company's expertise and equipment. That is precisely where Penam Pharmaceuticals comes in.

With a highly successful, thoroughly innovative approach to solving film extrusion, coating, and laminating problems, Penam Pharmaceuticals continues to make major contributions to the development and

manufacture of many new products and materials.

At present, the company is into the production of TABLETS, CAPSULES and LIQUIDS and the manufacturing facility of the company is fully equipped with the latest technology.

--the company has a team of well qualified and experienced technical staff which is committed to produce quality products. We have established our firm under GMP & ISO 9001: 2000 norms and specifications.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
