### Contact Details:

**52 South First Street Suite 320**

**San Jose**

**CA**

**95113**

**United States of America**

Tel: 408-294-5500

Fax: 408-317-0452

Email: [dpschutz@veracord.com](mailto:dpschutz@veracord.com)

Veracord provides Validation and Compliance consulting services for regulated industry clients and support projects related to computers and computerized systems, automation and controls, manufacturing equipment, facilities, utilities, processes, cleaning and sterilization, laboratory equipment, systems, and methods.

Veracord adheres to the risk-based approach and methodology to deliver comprehensive regulatory solutions that include GAP analysis, risk assessment and remediation strategies. Veracord manages and executes full validation projects, including developing validation master plans and requirements and writing and executing IQs, OQs, and PQs. Veracord services include developing Policies, Procedures, and Guidelines, and audit services related to Quality Systems, GMP, GLP, and GCP compliance.

Veracord's knowledge of local as well as international compliance and regulatory requirements combined with our expertise in Information Technology (IT), enables companies to streamline and optimize their business processes and align compliance with corporate policies and procedures. The result is an IT department that utilizes its resources more efficiently where they will do the most good adding quality and reliability to your IT Systems. This all translate into less network or system down time, less resources wasted or needed, and a regulatory compliant IT infrastructure and application base that ensures audit readiness when dealing with an FDA, SOX or any of the regulatory or vendor audits that you business is subject to.

Here are just some of the services Veracord has expertise in implementing:

- Ensuring an effective and continuous state of compliance
- SDLC streamlining through risk based thinking allows us to make compliance less burdensome and more practical
- System implementations through the entire life-cycle including software or system acquisition, implementation, validation, FDA representation, and retirement
- Mapping, streamlining and documenting your business processes
- Audit, Compliance and Validation Gap analysis and remediation
- Validation-related solutions
- Data protection, backup and disaster recovery solutions

**BioCorporate Profiles - upgrade to a full profile**

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
