In 1972, Dr. Kenneth N. Matsumura established the Alin Foundation-Corporation primarily as a biotechnology research funding organization. In the 25 years since then, Alin Foundation has helped develop lifesaving treatments for the four diseases -- heart attack, cancer, diabetes, and liver failure -- which combined are responsible for most of the deaths in the United States today. Each of these developments represents a stunning breakthrough in its field.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
