DynaWell™ is a privately owned Sweden based medical technology company founded in 1998. Our mission is to assist medical professionals by offering sophisticated diagnostic techniques for CT and MRI scanners. This provides a more accurate diagnosis to enhance the possibility of optimal and cost-effective treatment. Ultimately, we strive to help people who are experiencing pain or discomfort to return to a pain free life. In line of our business concept, we concentrate on developing an enhanced imaging products for computer tomography (CT) and magnetic resonance imaging (MRI).

DynaWell™, L-Spine (lumbar spine) our first product grew out of a need to gain more accurate imaging of the lumbar spine. This is achieved by offering a unique way of simulating the normal pressure exerted on the spine when standing, but in a supine (lying down) position. In the early 1990's a group of researchers at Sahlgrenska University Hospital in Gothenburg, Sweden, were wrestling with the fact that many back problems are not clearly visible when a patient is lying inside a CT or MRI scanner. Reason: axial compression on the lower back is about 50% lower than when standing. As a result, the source of the pain may not be visible in the images.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
