AutoImmune Inc. is a biopharmaceutical company developing a new class of orally administered pharmaceutical products for the treatment of autoimmune and other cell-mediated inflammatory diseases and conditions. At the start of 1999 the Company was conducting clinical trials for the following products: Colloral(R), for the treatment of rheumatoid arthritis, and AI 502, for the treatment of chronic transplant rejection. A third product, AI 401, for the treatment of Type 1 diabetes, is in Phase II clinical trials supported by Eli Lilly and Company ("Lilly") and the National Institutes of Health ("NIH"). The Company believes, based on preclinical and clinical data, that its proprietary approach to therapy can induce tissue-specific immunosuppression without toxicity or significant side effects. Additional clinical and commercial advantages of this approach include the ability to administer products orally (the preferred method of treating chronic diseases) and the potential for application to a variety of inflammatory diseases and conditions.

Recent Publications by AutoImmune Incorporated:

- [Familial disease, the HLA-DRB1 shared epitope and anti-CCP antibodies influence time at appearance of substantial joint damage in rheumatoid arthritis.](#)
*Rheumatoid arthritis (RA) progresses more rapidly in some patients than in...*2nd January, 2009
Center for Autoimmune Disease Research (CREA), School of Medicine, Rosario- J Autoimmun. 2008 Dec 29. ([DOI Direct Link](#))
- [Autoimmune pathology accounts for common manifestations in a wide range of neuro-psychiatric disorders: The olfactory and immune system interrelationship.](#)
*Smell has traditionally been considered a less important sense when...*23rd December, 2008
Universidade Federal Fluminense, Niteroi, RJ, Brazil; Center for- Clin Immunol. 2008 Dec 17. ([DOI Direct Link](#))
- [Antiphospholipid syndrome.](#)

- ABSTRACT: Antiphospholipid syndrome is diagnosed when arterial or venous...* 19th December, 2008

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
