Genomics One is a fully integrated biotechnology company committed to the creation of shareholder value through innovation in the fields of genomics, proteomics and mono-clonal antibodies. The mission of Genomics One is to generate profitable applications in research, therapeutics, diagnostics and pharmaceuticals.

Genomics One operates in the same biotechnology domain as Invitrogen, Human Genome Sciences, Celera, Incyte, Millennium and several other similar companies. Collectively, these companies address a market segment that has been recently estimated by Merrill Lynch (Genomics: an Industry Snapshot, 25 May 2000) to be between \$4.6 and \$5.3 billion US a year with an estimated annual growth rate of at least 15%. Genomics One believes that its patented TrueBlue® Technology provides it with a distinct technological and competitive edge.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
