Maccine Pty Ltd is Australia's newest contract research organization. It has been established to provide a specific range of non-clinical (pre-clinical) services to help meet fast-growing demand from the biotechnology and pharmaceutical industries.

Maccine is a recent spin-off from Monash University (Monash), one of Australia's leading medical research institutions. It is headquartered in Melbourne, Australia (the hub of medical research and biotechnology in Australia) and it also operates facilities in Indonesia.

Maccine aims to become a world leading research organisation and a preferred supplier of non-clinical contract research.

## BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's relate service indepth.

The annual cost is \$495.00 for established organizations and \$295.00 for organizations less than 12 months old.
