American Biogenetic Sciences, Inc. is engaged in researching, developing and marketing cardiovascular and neurobiology products for commercial development. The Company commenced selling its products during the last quarter of 1997. Certain ABS products are designed to be used for in vivo, while others are designed for in vitro, diagnostic procedures. In vivo diagnostic procedures are those in which proteins or compounds are injected directly into the body or bloodstream to assess abnormal reactions or conditions. During in vitro procedures, blood, urine or other bodily fluid or tissue is extracted from the body and the diagnostic tests are performed in a test tube or other laboratory equipment.

The Company's enabling technology includes a patented Antigen-Free mouse colony which allows for the generation of highly specific monoclonal antibodies that cannot be acquired from conventional systems.

## BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
