When Otto Roboz started the Roboz Surgical Instrument Co. in 1953, his goal was to provide researchers with specialized, hand-crafted surgical instruments designed to meet their unique demands. Since then, Roboz Surgical has grown into one of the life science market's leading sources of quality surgical instruments. Even though the work of the research community has changed quite a bit over the last 50 years, Roboz Surgical, through constant innovation, continues to provide the highest-quality instruments and unparalleled service, to meet and exceed all of our customers' needs.

Today Roboz Surgical Instrument Co. is a leading designer and developer of surgical instruments and related products. Our products are used by healthcare and research professionals worldwide. Throughout our fifty year history, the Roboz name has been synonymous with quality.

## BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
