SLIL Biomedical Corp. is an early-stage drug discovery company, focused on developing new treatments for cancer and other diseases. SLIL has patented technology and a pipeline of potential drugs, the first of which is expected to enter a human clinical trial for cancer in early 2002.

SLIL has a strong board and well-qualified management. The Company also has outstanding scientific resources, led by Dr. Laurence Marton and Dr. Benjamin Frydman. Dr. Marton is considered a leading expert in the field of polyamines and their role in cell function and human disease, while Dr. Frydman is a world-renowned organic chemist and a leader in the field of porphyrin research.

Recent Publications by SLIL Biomedical:

- [Long-chain polyamines \(oligoamines\) exhibit strong cytotoxicities against human prostate cancer cells.](#)
*alpha N,(omega)N-bis(ethyl) octamine SL-11160, decamine SL-11159,...*13th November, 2004
SLIL Biomedical Corp., 535 Science Drive, Suite C, Madison, WI 53711, USA.- Bioorg Med Chem. 2003 Sep 1;11(18):4121-31.
- [Macrocyclic polyamines deplete cellular ATP levels and inhibit cell growth in human prostate cancer cells.](#)
*In solid tumors, when O(2) partial pressure drops below 10 mmHg, ATP...*6th April, 2004
SLIL Biomedical Corp., 535 Science Dr., Suite C, Madison, Wisconsin- J Med Chem. 2004 Feb 12;47(4):1051-9. ([DOI Direct Link](#))
- [Cyclopropane-containing polyamine analogues are efficient growth inhibitors of a human prostate tumor xenograft in nude mice.](#)
*Polyamine analogues 7, 10, 18, 27, and 32 containing cyclopropane rings...*13th November, 2003
SLIL Biomedical Corporation, 535 Science Drive, Suite C, Madison, WI- J Med Chem. 2003 Oct 9;46(21):4586-600. ([DOI Direct Link](#))

- [HIV insertions within and proximal to host cell genes are a common finding in tissues containing high levels of HIV DNA and macrophage-associated p24 antigen expression.](#)
*HIV integration within host cell genomic DNA is a requisite step of the...*2nd August, 2003
SLIL Biomedical Corporation, Menlo Park, California, USA.- J Acquir Immune Defic Syndr. 2003 Jul 1;33(3):308-20.
- [A novel polyamine analog \(SL-11093\) inhibits growth of human prostate tumor xenografts in nude mice.](#)
*PURPOSE: We tested the polyamine analog SL-11093...*30th July, 2003
SLIL Biomedical Corporation, Suite C, 535 Science Dr, Madison, WI- Cancer Chemother Pharmacol. 2003 Jun;51(6):488-92. Epub 2003 Apr 15. ([DOI Direct Link](#))

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's relate service indepth.

The annual cost is \$495.00 for established organizations and \$295.00 for organizations less than 12 months old.
