What we do is vital. Researchers and professionals in the pharmaceutical, medical device manufacturing, defense and industrial, and healthcare industries count on us as allies in the global fight against infection and contamination.

We've earned our position as a trusted partner by:

Enhancing customer productivity and profitability with effective infection and contamination prevention products and services

Customizing preventive maintenance programs to meet evolving safety challenges

Hiring results-oriented professionals with a wide array of problem-solving capabilities

Developing programs to educate customers about current regulatory, safety, and technical issues

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
