Synergix is a biotech company founded to enter lead discovery as a creator of new molecules. Synergix expertise is in the design of small active lead molecules using rational drug design as a core technology. Its powerful computerized proprietary platforms and its unique know-how in rational drug design allow Synergix to be the right partner for these drug companies to streamline their discovery process, help them to maximize their resources and save their research costs. Synergix provides lead discovery services for pharmaceutical and biotechnology companies, offering a full range of creative solutions: focused libraries, peptidomimeticism, mimicry, structure-based drug design and lead optimization.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's relate service indepth.

The annual cost is \$495.00 for established organizations and \$295.00 for organizations less than 12 months old.
