

Basic Reproduction Number

[View the current Basic Reproduction Number InDepth page on BioPortfolio.com](http://www.bioportfolio.com/indepth/Basic_Reproduction_Number.html)

(http://www.bioportfolio.com/indepth/Basic_Reproduction_Number.html)

Recent Publications on Basic Reproduction Number:

- [A two-age-classes dengue transmission model.](#)
*In this paper, we discuss a two-age-classes dengue transmission model with...*23rd September, 2008
Department of Mathematics, Universitas Padjadjaran, Jl. Raya- Math Biosci. 2008 Sep 3. ([DOI Direct Link](#))
- [The risk and control of Salmonella outbreaks in calf-raising operations: a mathematical modeling approach.](#)
*Salmonellosis in calves has economic and welfare implications, and serves...*10th September, 2008
- Vet Res. 2008 Sep 9;39(6):61. ([DOI Direct Link](#))
- [Global Properties of SIR and SEIR Epidemic Models with Multiple Parallel Infectious Stages.](#)
*We consider global properties of compartment SIR and SEIR models of...*5th September, 2008
MACSI, Department of Mathematics and Statistics, University of Limerick,- Bull Math Biol. 2008 Sep 4. ([DOI Direct Link](#))
- [Simulation of climate-change scenarios to explain Usutu-virus dynamics in Austria.](#)
*The emergence and spread of infectious diseases in mid-latitudes, so far...*22nd August, 2008
Institute for Veterinary Public Health, University of Veterinary Medicine- Prev Vet Med. 2008 Aug 18. ([DOI Direct Link](#))
- [The control of vector-borne disease epidemics.](#)
*The theoretical underpinning of our struggle with vector-borne disease,...*19th August, 2008
Department of Fisheries and Wildlife, Oregon State University, 104 Nash- J Theor Biol. 2008 Jul 30. ([DOI Direct Link](#))
- [Predator-prey model with disease infection in both populations.](#)
*A predator-prey model with disease infection in both populations is...*15th August, 2008
Department of Public Health and Biostatistics Center, China Medical- Math Med Biol. 2008 Sep;25(3):247-66. Epub 2008 Aug 12. ([DOI Direct Link](#))
- [The abundance threshold for plague as a critical percolation phenomenon.](#)
*Percolation theory is most commonly associated with the slow flow of...*12th August, 2008
Theoretical Epidemiology, Faculty of Veterinary Medicine, University of- Nature. 2008 Jul 31;454(7204):634-7. ([DOI Direct Link](#))
- [Cost-effectiveness analysis of a hypothetical hepatitis C vaccine compared to antiviral therapy.](#)
*SUMMARYWe propose a mathematical model to simulate the dynamics of...*18th July, 2008
School of Medicine, University of Sao Paulo, Brazil.- Epidemiol Infect. 2008 Jul 17:1-9. ([DOI Direct Link](#))
- [Calculation of \$r_0\$ for age-of-infection models.](#)

*We consider age-of-infection epidemic models to describe multiple- stage...*12th July, 2008
Harvard Graduate School of Education, Harvard University, Cambridge, MA- Math Biosci Eng. 2008
Jul;5(3):585-99.

- [Bayesian analysis of severe acute respiratory syndrome: the 2003 Hong Kong epidemic.](#)
*This paper analyzes data arising from a Severe Acute Respiratory Syndrome...*11th July, 2008
Mathematics Department, University of Botswana, Private Bag 0022,- Biom J. 2008
Aug;50(4):597-607. ([DOI Direct Link](#))
- [SEIR EPIDEMIOLOGICAL MODEL WITH VARYING INFECTIVITY AND INFINITE DELAY.](#)
*A new SEIR model with distributed infinite delay is derived when the...*11th July, 2008
Analysis and Stochastics Research Group, Hungarian Academy of Sciences,- Math Biosci Eng. 2008
Apr 1;5(2):389-402.
- [Impact of delays in cell infection and virus production on HIV-1 dynamics.](#)
*Analysed is a mathematical model for HIV-1 infection with two delays...*4th July, 2008
School of Mathematics and Physics, Nanhua University, Hengyang, Hunan- Math Med Biol. 2008
Jun;25(2):99-112. Epub 2008 May 25. ([DOI Direct Link](#))
- [Saturation recovery leads to multiple endemic equilibria and backward bifurcation.](#)
*The number of patients need to be treated may exceed the carry capacity of...*1st July, 2008
School of Mathematics and Computer Sciences, Institute of Mathematics,- J Theor Biol. 2008 Sep
21;254(2):275-83. Epub 2008 May 22. ([DOI Direct Link](#))
- [Oscillations in a patchy environment disease model.](#)
*For a single patch SIRS model with a period of immunity of fixed length,...*28th June, 2008
Department of Mathematics, University of British Columbia, Vancouver, BC,- Math Biosci. 2008
Sep;215(1):1-10. Epub 2008 May 16. ([DOI Direct Link](#))
- [Backward bifurcations in dengue transmission dynamics.](#)
*A deterministic model for the transmission dynamics of a strain of dengue...*25th June, 2008
Department of Mathematics, University of Manitoba, Winnipeg, Man., Canada- Math Biosci. 2008
Sep;215(1):11-25. Epub 2008 May 20. ([DOI Direct Link](#))
