(<http://www.bioportfolio.com/indepth/Carcinoma.html>) - Regularly Updated.

A carcinoma is any malignant cancer that arises from epithelial cells. Carcinomas invade surrounding tissues and organs and may metastasize to lymph nodes and distal sites. Carcinoma in situ is a pre-malignant condition, in which cytological signs of malignancy are present, but there is no histological evidence of invasion through the epithelial basement membrane. ([From the Wikipedia article Carcinoma](#).)
