

# Pemphigus

[View the current Pemphigus InDepth page on BioPortfolio.com](#) ([PDF](#))

(<http://www.bioportfolio.com/indepth/Pemphigus.html>) - Regularly Updated.

Pemphigus is an autoimmune disorder that causes blistering and raw sores on skin and mucous membranes. As with other autoimmune disorders, it is caused when the body's defenses mistake its own tissues as foreign, and attack the cells. This particular autoimmune reaction is sometimes associated with the use of Penicillamine. Pemphigus is derived from the Greek pemphix, meaning bubble or blister. ([From the Wikipedia article Pemphigus](#).)
