

BioEmail – *Email lists for specifically targeting professionals within the life science, biotechnology and pharmaceutical sectors.*

Email contact addresses for European scientists working in areas related to Cytokines and Cytokine Therapies.

Total number of individuals : 24 339

Example Job Title

- Scientist
- Researcher
- (Senior) Technologist
- Principle Investigator
- Professor
- Lecturer
- Reader

Keywords

- Cytokine
- Interleukin
- Interferon
- Cytokine
- Clinical Immunology
- Drug Development
- Drug Therapy

Geographical Breakdown

Country	Percent
Germany	19.9
Italy	15.7
UK	13.7
France	12.0
Spain	7.6
Netherlands	6.7
Switzerland	4.4
Belgium	3.2
Greece	2.8

Sample Institutions

- Division of Stem Cells and Cancer, Deutsches Krebsforschungszentrum (DKFZ), DKFZ-ZMBH Alliance, Im Neuenheimer Feld 280, D-69120, Germany

- Department of Gastroenterology Hospital Santa Maria, Lisbon, Portugal
- Neuropsychiatry and Laboratory of Molecular Psychiatry, Charite-Universitätsmedizin Berlin, Campus Mitte, Berlin, Germany
- First Department of Medicine, University of Erlangen-Nuremberg, Germany
- Institute for Virology, and Institute of Medical Microbiology and Hospital Hygiene, Heinrich-Heine-University, Dusseldorf, D-40225, Germany
- Department of Virology, University of Freiburg, ; CeMM-Center for Molecular Medicine of the Austrian Academy of Sciences, Vienna, Switzerland
- Division of Infectious Diseases and Hospital Epidemiology, University Hospital Basel, CH-4031 Basel, Switzerland
- Department of Physiology, Faculty of Science, University of Extremadura, Avda. de Elvas, 6071, Spain
- Institut National de la Sante et de la Recherche Medicale, Unite 892, CLCC Rene Gauducheau, Saint Herblain, 44800, France
- Cardiac Surgery Unit, Magna Graecia University of Catanzaro, Catanzaro, 88100, Italy
- Department of Neurobiology, Care Sciences and Society, Section for Neurodegeneration, Karolinska Institutet,
- INRA, UMR 85 Physiologie de la Reproduction et des Comportements, F-Nouzilly, F-37380, France
- Chair and Division of Allergy, Clinical Immunology and Rheumatology, La Sapienza University, 2nd School of Medicine, Italy
- Department of Pediatric Immunology and Rheumatology, Pediatric Clinic, University of Brescia, Brescia, Italy
- Department of Rheumatology, University of Cagliari, Sardinia, Italy
- Division of Molecular and Cellular Biology, Faculty of Biomedical and Life Sciences, University of Glasgow, Glasgow, UK
- Department of Nephrology and Hypertension, University Hospital Erlangen, Erlangen, Germany
- Laboratory of Microbiology and Immunology of Infection, Instituto de Biologia Molecular e Celular (IBMC), Portugal
- Department of Immunology, Beaumont Hospital, Dublin, Ireland.,

Example Published Scientists

xxx@imperial.ac.uk	Th17-derived cytokines: New kids on the block of inflammation.
xxx@uclouvain.be	Weekly pegylated interferon alpha-2b vs daily interferon a-2b versus standard regimen of interferon a-2b in the treatment of patients with chronic hepatitis C virus infection.
xxx@charite.de	IL-4/IL-13-dependent alternative activation of macrophages but not microglial cells is associated with uncontrolled cerebral cryptococcosis.
xxx@dragonet.es	New therapies for hepatitis C virus infection.
xxx@well.ox.ac.uk	Lack of association of interferon regulatory factor 1 with severe malaria in affected child-parental trio studies across three African populations.
xxx@uhkt.cz	Combined chemo- and immunotherapy of tumors induced in mice

xxx@chu-rennes.fr	by bcr-abl-transformed cells.
xxx@karolinska.se	Impact of age, leukocyte count and day 21-bone marrow response to chemotherapy on the long-term outcome of children with philadelphia chromosome-positive acute lymphoblastic leukemia in the pre-imatinib era: results of the FRALLE 93 study.
xxx@inserm.fr	Cisplatin and oxaliplatin toxicity: importance of cochlear kinetics as a determinant for ototoxicity.
xxx@med.ucm.es	Is NF-kappaB a good target for cancer therapy? Hopes and pitfalls.
xxx@uk-koeln.de	Oxidative stress and inflammation, a link between chronic kidney disease and cardiovascular disease.
xxx@unina.it	Ribavirin priming in patients with chronic hepatitis C and normal ALT: a pilot study.
xxx@em.uni-frankfurt.de	Can serum TGF-beta 1 be used to evaluate the response to antiviral therapy of haemophilic patients with HCV-related chronic hepatitis?
xxx@uu.nl	Activation of tumor-specific T lymphocytes after laser-induced thermotherapy in patients with colorectal liver metastases.
xxx@ucc.ie	Effect of oral antiplatelet agents on major bleeding in users of coumarins.
xxx@cam.ac.uk	Inflammatory markers in depression.
xxx@med.uni-tuebingen.de	Hepatosplenomegaly associated with chronic malaria exposure: evidence for a pro-inflammatory mechanism exacerbated by schistosomiasis.
xxx@novartis.com	Forced IFIT-2 expression represses LPS induced TNF-alpha expression at posttranscriptional levels.
xxx@dundee.ac.uk	PI3K inhibitors for cancer treatment: where do we stand?
xxx@helse-bergen.no	IL-1 family in breast cancer: potential interplay with leptin and other adipocytokines.
	Strength and weakness of phase I to IV trials, with an emphasis on translational aspects.
