GAAP net cash provided by operating activities was \$1.9 billion; Free cash flow was \$1.6 billion. Fiscal 2017 guidance

Company raises the lower end of its guidance for fiscal year 2017 by 8 cents per share and now anticipates adjusted diluted net earnings per share of \$4.98 to \$5.08. Share repurchase program

Company authorizes \$5 billion share repurchase program. Walgreens Boots Alliance, Inc. (Nasdaq: WBA) today announced financial results for the third quarter of fiscal 2017, which ended 31 May 2017.

Executive Vice Chairman and CEO Stefano Pessina said, "Our results this quarter continued to meet our expectations as strategic partnerships brought more patients to our U.S. pharmacies. This led to our highest reported quarterly retail prescription market share in the U.S. Our ongoing cost transformation program continues to bear fruit and we remain confident in the long term growth of our company."

### Overview of Third Quarter Results

Fiscal 2017 third quarter net earnings attributable to Walgreens Boots Alliance determined in accordance with GAAP increased 5.3 percent to \$1.2 billion compared with the same quarter a year ago, while GAAP diluted net earnings per share increased 5.9 percent to \$1.07 compared with the same quarter a year ago. The increases in GAAP net earnings and GAAP net earnings per share primarily reflect a lower effective tax rate.

Adjusted fiscal 2017 third quarter net earnings attributable to Walgreens Boots Alliance<sup>1</sup> increased 11.9 percent to \$1.4 billion, up 13.6 percent on a constant currency basis, compared with the same quarter a year ago. Adjusted diluted net earnings per share for the quarter increased 12.7 percent to \$1.33, up 14.4 percent on a constant currency basis, compared with the same quarter a year ago.

Sales in the third quarter were \$30.1 billion, an increase of 2.1 percent from the year-ago quarter, and an increase of 5.0 percent on a constant currency basis.

GAAP operating income in the third quarter was \$1.5 billion, a decrease of 1.0 percent from the same quarter a year ago. Adjusted operating income in the third quarter was \$1.9 billion, an increase of 5.5 percent from the same quarter a year ago, and an increase of 7.5 percent on a constant currency basis.

GAAP net cash provided by operating activities was \$1.9 billion in the third quarter, and free cash flow was \$1.6 billion.

## Overview of Fiscal 2017 Year-to-Date Results

For the first nine months of fiscal 2017, net earnings attributable to Walgreens Boots Alliance determined in accordance with GAAP increased 4.2 percent to \$3.3 billion compared with the same period a year ago, while GAAP diluted net earnings per share increased 4.9 percent to \$3.02 compared with the same period a year ago.

Adjusted net earnings attributable to Walgreens Boots Alliance<sup>1</sup> for the first nine months of fiscal 2017 increased 7.2 percent to \$4.1 billion, up 9.3 percent on a constant currency basis, compared with the same period a year ago. Adjusted diluted net earnings per share for the first nine months of fiscal

2017 increased 7.7 percent to \$3.79, up 9.9 percent on a constant currency basis, compared with the same period a year ago.

Sales decreased 0.7 percent to \$88.1 billion in the first nine months of fiscal 2017 compared with the same period a year ago. On a constant currency basis, sales increased 2.3 percent.

GAAP operating income in the first nine months of fiscal 2017 was \$4.4 billion, a decrease of 8.6 percent from the same period a year ago. Adjusted operating income in the first nine months of the fiscal year was \$5.7 billion, an increase of 0.1 percent from the same period a year ago, and an increase of 2.2 percent on a constant currency basis.

GAAP net cash provided by operating activities was \$5.2 billion in the first nine months of fiscal 2017, and free cash flow was \$4.3 billion.

#### Rite Aid Acquisition

Walgreens Boots Alliance also announced today a new definitive agreement with Rite Aid Corporation under which Walgreens Boots Alliance will purchase 2,186 stores, three distribution centers and related inventory from Rite Aid. The consideration for the transaction will be \$5.175 billion in cash, the assumption by Walgreens Boots Alliance of the related real estate leases and the grant of an option to Rite Aid, exercisable through May 2019 and subject to certain conditions, to become a member of Walgreens Boots Alliance's group purchasing organization, Walgreens Boots Alliance Development GmbH. Walgreens Boots Alliance will also assume certain limited store-related liabilities as part of the new transaction.

This new agreement replaces the previous merger agreement with Rite Aid, announced in October 2015 and amended in January 2017, and the agreement to divest certain Rite Aid stores to Fred's, Inc. announced in December 2016. Both of these agreements have been terminated. The new transaction is subject to the expiration or termination of applicable waiting periods under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, and other customary closing conditions. The initial closing of the new transaction is expected to occur within the next six months.

#### Share Repurchase Program

On 28 June 2017 the company authorized a share repurchase program for up to \$5 billion of the company's shares prior to the program's expiration on 31 August 2018.

## Company Outlook

The company raised the lower end of its guidance for fiscal year 2017 by 8 cents per share and now anticipates adjusted diluted net earnings per share of \$4.98 to \$5.08. This guidance assumes current exchange rates for the rest of the fiscal year.

## Third Quarter Business Division Highlights

### Retail Pharmacy USA:

Retail Pharmacy USA had third quarter sales of \$22.5 billion, an increase of 6.3 percent over the year-ago quarter. Sales in comparable stores increased 3.7 percent compared with the same quarter a year ago.

Pharmacy sales, which accounted for 69.9 percent of the division's sales in the quarter, increased 10.3 percent compared with the year-ago quarter. This was primarily due to higher prescription volumes including mail and central specialty following the formation of AllianceRx Walgreens Prime. Comparable pharmacy sales increased 5.8 percent, primarily due to higher volume. Reimbursement pressure and generics had a negative impact on comparable pharmacy sales growth, which was partially offset by brand inflation. The division filled 255.2 million prescriptions (including immunizations) adjusted to 30-day equivalents in the quarter, an increase of 8.5 percent over the year-ago quarter. Prescriptions filled in comparable stores increased 8.3 percent compared with the same quarter a year ago, primarily due to Medicare Part D growth and volume growth from previously announced strategic pharmacy partnerships. The division's retail prescription market share on a 30-day adjusted basis in the third quarter increased approximately 110 basis points over the year-ago quarter to 20.5 percent, as reported by IMS Health. This was the division's highest reported quarterly retail prescription market share in the U.S.

Retail sales decreased 1.8 percent in the third quarter compared with the year-ago period, which

includes the impact of the previously announced closure of certain e-commerce operations. Comparable retail sales were down 0.4 percent in the quarter, with declines in the consumables and general merchandise category and in the personal care category partially offset by growth in the health and wellness category and in the beauty category.

GAAP gross profit decreased 1.7 percent compared with the same quarter a year ago and adjusted gross profit decreased 0.5 percent.

GAAP third quarter selling, general and administrative expenses (SG&A) as a percentage of sales decreased 1.6 percentage points compared with the year-ago quarter, primarily due to sales mix and higher sales. On an adjusted basis, SG&A as a percentage of sales decreased 1.7 percentage points in the same period, for similar reasons.

GAAP operating income in the third quarter increased 0.1 percent from the year-ago quarter to \$1.2 billion. Adjusted operating income in the third quarter increased 5.9 percent from the year-ago quarter to \$1.5 billion.

#### Retail Pharmacy International:

Retail Pharmacy International had third quarter sales of \$2.8 billion, a decrease of 10.3 percent from the year-ago quarter mainly due to currency translation. Sales decreased 0.2 percent on a constant currency basis.

On a constant currency basis, comparable store sales increased 0.2 percent compared with the year-ago quarter. Comparable pharmacy sales decreased 0.1 percent on a constant currency basis, primarily due to the negative impact of pharmacy funding in the UK. Comparable retail sales increased 0.4 percent on a constant currency basis, reflecting growth in the UK.

GAAP gross profit decreased 11.6 percent compared with the same quarter a year ago, mainly due to currency translation. On a constant currency basis, adjusted gross profit decreased 1.2 percent.

GAAP SG&A as a percentage of sales increased 1.5 percentage points. Adjusted SG&A as a percentage of sales, on a constant currency basis, increased by 0.7 percentage point.

GAAP operating income in the third quarter decreased 36.3 percent from the year-ago quarter to \$142 million, while adjusted operating income decreased 25.2 percent to \$193 million, down 14.0 percent on a constant currency basis.

#### Pharmaceutical Wholesale:

Pharmaceutical Wholesale had third quarter sales of \$5.3 billion, a decrease of 7.9 percent from the year-ago quarter, mainly due to currency translation. On a constant currency basis, comparable sales increased 3.7 percent, which was ahead of the company's estimate of market growth, weighted on the basis of country wholesale sales, with growth in emerging markets and the UK partially offset by challenging market conditions in continental Europe.

GAAP operating income in the third quarter was \$200 million, which included \$84 million from the company's equity earnings in AmerisourceBergen, compared with \$146 million in the year-ago quarter. Adjusted operating income increased 41.3 percent to \$253 million, up 53.1 percent on a constant currency basis. Excluding adjusted equity earnings from AmerisourceBergen, adjusted operating income was up 0.6 percent on a constant currency basis.

#### Conference Call

SUPPLEMENTAL INFORMATION (UNAUDITED)

REGARDING NON-GAAP FINANCIAL MEASURES

(in millions, except per share amounts)

Â The following information provides reconciliations of the supplemental non-GAAP financial measures, as defined under SEC rules, presented in this press release to the most directly comparable financial measures calculated and presented in accordance with generally accepted accounting principles in the United States (GAAP). The Company has provided the non-GAAP financial measures in the press release, which are not calculated or presented in accordance with GAAP, as supplemental information and in addition to the financial measures that are calculated and presented in accordance with GAAP.

These supplemental non-GAAP financial measures are presented because management has evaluated the Company's financial results both including and excluding the adjusted items or the effects of foreign currency translation, as applicable, and believe that the supplemental non-GAAP financial measures presented provide additional perspective and insights when analyzing the core operating performance of the Company's business from period to period and trends in the Company's historical operating results. These supplemental non-GAAP financial measures should not be considered superior to, as a substitute for or as an alternative to, and should be considered in conjunction with, the GAAP financial measures presented in the press release. The Company does not provide a reconciliation for non-GAAP estimates on a forward-looking basis (including the information under "Company Outlook" above) where it is unable to provide a meaningful or accurate calculation or estimation of reconciling items and the information is not available without unreasonable effort. This is due to the inherent difficulty of forecasting the timing or amount of various items that have not yet occurred, are out of the Company's control and/or cannot be reasonably predicted, and that would impact diluted net earnings per share, the most directly comparable forward-looking GAAP financial

measure. For the same reasons, the Company is unable to address the probable significance of the unavailable information. Forward-looking non-GAAP financial measures provided without the most directly comparable GAAP financial measures may vary materially from the corresponding GAAP financial measures.

Constant currency The Company also presents certain information related to current period operating results in "constant currency," which is a non-GAAP financial measure. These amounts are calculated by translating current period results at the foreign currency exchange rates used in the comparable period in the prior year. The Company presents such constant currency financial information because it has significant operations outside of the United States reporting in currencies other than the U.S. dollar and this presentation provides a framework to assess how its business performed excluding the impact of foreign currency exchange rate fluctuations.

Comparable sales For our Retail Pharmacy divisions, comparable stores are defined as those that have been open for at least 12 consecutive months and that have not been closed for seven or more consecutive days, undergone a major remodel or been subject to a natural disaster during the past 12 months. Relocated and acquired stores are not included as comparable stores for the first 12 months after the relocation or acquisition. Comparable store sales, comparable pharmacy sales and comparable retail sales refer to total sales, pharmacy sales and retail sales, respectively, in such stores. For our Pharmaceutical Wholesale division, comparable sales are defined as sales excluding acquisitions and dispositions. The method of calculating comparable sales varies across the industries in which we operate. As a result, our method of calculating comparable sales may not be the same as other companies' methods.

Comparable sales are presented on a constant currency basis for the Retail Pharmacy and Pharmaceutical Wholesale divisions. In the third quarter of fiscal 2017 compared to the year-ago quarter, the Retail Pharmacy International division's comparable store sales on a reported currency basis decreased 9.9 percent, comparable pharmacy sales on a reported currency basis decreased 9.9 percent and comparable retail sales on a reported currency basis decreased 10.0 percent. The Pharmaceutical Wholesale division's comparable sales excluding acquisitions and dispositions on a reported currency basis decreased 7.0 percent.

1 Â Free cash flow is defined as net cash provided by operating activities in a period less additions to property, plant and equipment (capital expenditures) made in that period. This measure does not represent residual cash flows available for discretionary expenditures as the measure does not deduct the payments required for debt service and other

contractual obligations or payments for future business acquisitions. Therefore, we believe it is important to view free cash flow as a measure that provides supplemental information to our entire statements of cash flows.
